RC DANCE CENTER

The Red Chair

School of Performing Arts and the non-profit production organization The Red Chair Children's Production Company were established in 2005.

As mothers, artists, and businesswomen, Jennifer Thompson-Bosco and Sylvia Kelman are dedicated to creating a place where children can receive quality technical training in a safe and family-friendly environment. In 2013, *The Red Chair School* became *RC Dance Center*.

We aim to inspire, motivate, and mentor while sharing the physical arts with students of all ages, through extraordinary dance and performing arts experiences. Our program is designed to support students as they develop into confident, young, artistic performers who grow into creative and artistic adults. All classes are taught by professional teachers and performers that span all art forms and disciplines.

PRE-PROFESSIONAL TRAINING IN A FAMILY-FRIENDLY ENVIRONMENT

RC Dance Center offers a diverse and comprehensive dance curriculum appropriate for ages 3 – Adult including:

Ballet, Tap, Jazz, Pre-Primary Dance, Kinder Dance, Hip Hop, Kickettes, Contemporary, Yoga, Acting

Commercial Dance

RC's Commercial dance program encompasses jazz, tap, hip hop, lyrical, contemporary, Kickettes, yoga and more. These fun and hip programs offer students a well-rounded dance education and the opportunity to experience other dance styles outside of ballet. Taught by current and past professional performers, students receive education in the most current dance trends, all while learning and maintaining excellent fundamental technique.

First Steps Program

In a caring, safe, and family-friendly environment, the seeds of future artists are planted. Teachers and staff nurture each student so they bloom into artists with us. With years of experience working with young children, our teachers love to share the joy of dance through ballet, tap, jazz, hip-hop and creative movement. Starting with Pre-Primary Dance, moving into Kinder Dance, and side by side with Pee Wee Hip Hop, each level is a progressive program based on the child's physical, social, cognitive, and emotional development.

Acting Program

RC's Acting Program incorporates scene study and monologues to give young Thespians and commercial actors confidence and technical skills that will assist them on auditions and in life. The program teaches character development, cold-reading techniques, pantomime, improvisation, and vocal/physical warm-up. Through this process, students develop their performance skills. In addition, students use props, scenery, costumes, and make-up as they explore show production. Instruction increases imagination, encourages self-esteem and helps students work together as a team.

Pre-Professional Training Programs

The RC Pre-Professional Ballet and Commercial Training Programs are available to the serious dance student who would like to prepare themselves for a professional career in dance. Each Program Director personally mentors and guides each student as they train to become a professional dancer. These programs are by audition only, and students can expect to be exposed to more concentrated training, as well as gaining additional competition and performance opportunities.

Classical Ballet Conservatory

The RC Dance Center is proud to include THE AMERICAN BALLET THEATRE® National Training Curriculum.

This breakthrough 8 level program combines high quality artistic training with the basics of dancer health and child development.

The ABT® National Training Curriculum consists of a comprehensive set of age-appropriate, outcome-based guidelines to provide the highest quality ballet training to dance students of all ages and skill levels. The program is overseen by Jennifer Bosco, who is a Certified and Affiliate Teacher with ABT® National Training Curriculum.
